

Citizenship

Dear Parents,

During this cycle, your student will be learning about the trait of citizenship. The object of the lessons are for students to learn what it takes to be a good citizen of their country, as well as to become more aware of their personal duties at home, at school and in their community. We will discuss the trait and complete social skill activities and projects in order that your student may learn more about what citizenship means.

Over the course of this unit, take time to talk with your child about the meaning of citizenship. Share some of your own personal experiences, past and present, of how you demonstrated being a good citizen. You can also participate in activities that will help build the social skills and understanding of citizenship at home. A list of suggested website that has activities for you and your child are listed below. Feel free to create your own activities as well.

Thank you for helping to teach your child about the importance of being a good citizen.

Sincerely,
